1. Reference is made to DF, your office, subject as above dated 19 January 1956.
2. This Office concurs with the proposed exploitation program with the understanding that categories listed below will cover the Quartermaster aspects indicated:

C. Military

12. Military (Air Force and Civil Air Fleet only) - will include all aspects of airborne supply, parachute sports and training, equipment related to airborne supply.
13. Military science: will include exploitation of information on all aspects of Soviet Intendance (QM) including POL supply and handling, all Quartermaster equipment, and Quartermaster research and development fields.

3. It is felt that the fields indicated above are important enough to justify inclusion in Tab A in all countries. In this connection it is noted that military information on Albania is limited to Order of Battle only and for East Germany includes military units only.

FOR THE QUARTERMASTER GENERAL:
